

PLANT MACHINERY

Skilled plant operatives

365 has been actively involved in supplying skilled plant operatives to a number of projects in the UK and abroad since 2011.

365 tracks market trends and candidate availability as well as provides competitive recruitment solutions, in an ever demanding market place.

Our experience and proven track record has ensured our clients complete projects safely, on-time and on budget, ensuring the highest standard of workmanship.

We possess a high level of expertise in sourcing and qualifying (insert a hyperlink here to the "training" tab) experienced machine operatives, starting from tractor drivers and ending on GPS trained dozer and excavator drivers.

Implementing stringent employment and reference checks allows us to ensure that your machine is operated by highly experienced professionals. **365** has had a high degree of success in supplying CPCS and NPORS qualified machine operators to a number of projects as per the below.

- Excavator (+ GPS)
- Bulldozer (+ GPS)
- ADT/FTD
- Roller
- Grader
- Tractor
- Telehandler
