

PROJECTS

A variety of projects

365 prides itself of on our understanding of the construction industry, having come from site based roles the team know the understanding of identifying and retaining the highest calibre of professionals to make sure the projects come in on time and budget. **365** has been supplying highly skilled personnel for a number of major infrastructure and high profile construction projects including:

- Commercial builds
- Civil
- Hospital
- Infrastructure
- Regeneration/Reclamation
- Residential

Successful completion of these projects has posed numerous challenges which **365** have been able to meet thanks to providing high quality service and a broad spectrum of long-term and short-term solutions.

Although, **365** has always emphasised quality over quantity, we believe that a business should not be forced to compromise and should always strive to achieve both. For the last few years **365** have been a key supplier to NHS hospital builds. The quality of service provided to these projects has resulted in **365** being the chosen partner on this framework of projects.

365 prides itself on having a pool of reliable and loyal professionals, the relationship with whom enables us to offer our clients a full spectrum of recruitment solutions.

A high level of service provided by **365** has ensured an extensive growth of both our client and candidate databases. **365** has always been placing emphasis on an individual approach and building personal relationships with both.
